Single Source Justification Form

Subject:	HPC Cluster Software Maintenance				
Date:	29/07/2022	**Department:**	Research Computing	**PR No.:**	8471111140
Estimated Budget:	AED 578,550.00	**Focal Point:**	Dr Dureid El Moghraby	**Vendor:**	HPCME
Exception Type:	Single Source (Preferred among other available suppliers in market)				

GENERAL INSTRUCTION: End User is required to complete all the below sections and provide the maximum details, if other than mandatory sections is "Not Applicable", the same to be indicated. This document and relevant attachments, if any, must be attached to the PR before proceeding for approval in system.

1. Requirement Overview *(Mandatory Section)*

Requirement purpose in brief (brief Scope):

This requirement is to extend the support for the HPC Cluster software and maintenance. This software, Qlustar made by Q-Leap Networks, is used to manage the HPC cluster and is integral to its operation. The support contract covers performance fine tuning, monitoring, support for SLURM workload manager, Lustre parallel filesystem, cluster customization. For full scope of work and support please see SSLA document

2. Single Source Justification *(Mandatory Section)*

Detailed justification for the single/sole source requirement:

As per the attached letter from the vendor (Q-Leap), HPCME is the exclusive partner for Q-leap Networks in the UAE. Q-Leap are the developers of the cluster management software.

3. References *(Mandatory Section)*
