PLEASE ALWAYS ENTER A BP ID BEFORE NAVIGATING

PLEASE DO NOT SELECT ANY DATES EARLIER THAN 01 Jan 2019 and always select the *1st day of the month* (Start Date) and the *last day of the month* (End Date) for any period. Please do not select any days in-between

This is the Customer COUNTER Usage Dashboard, which provides institutional analysis of Usage for the following products: SpringerLink journals. The latest YTD month available within the data is displayed in the upper right.

To get started, input the desired BP ID. To find the correct BP ID for your accounts, refer to your CRM or the Admin Lookup tool from the Identity team.

You may use the interactive table of contents on the next page OR the navigation panel above to jump to various sections.

The report can be exported as PDF (click on the arrow next to **Share** on the upper right) and certain tables can be exported as a CSV for Excel (right-click and select "export as CSV"). **Given the size of the report, it may take a couple of minutes to export the full deck. We recommend selecting only the pages you need to export.**

As this was designed for **Business Partner analysis** only, this dashboard is **NOT MEANT** for global/country nor product level usage reporting. Please don't use it as such.

Table will update with the Top 5 selection once the BP ID is entered. Verify that your selection is correct and go to the next page
