KU LIBRARY STRATEGIC PLAN 2023-2026

Mission Statement:

Our mission is to support the curricular and scholarship needs of the KU community. The library is committed to the University's goals designed for the advancement of knowledge, science and technology, scholarship, and lifelong learning in partnership with scholarly and professional communities both locally and internationally.

To accomplish this mission, the KU Library:

1) Preservation and discovery of knowledge through solid storage procedures, borrowing policies, information systems, and maintenance of documents.
2) Builds, organizes, and provides physical and E-access to materials through indexes, catalogs, and other aids which allows end-users to allocate essential items for their needs (learning, teaching, and research)
3) Support students and faculty with relevant, world-class library and information resources
4) Maintains the physical, technological, and human infrastructure necessary for encouraging the use of library resources and services;
5) Prepare students with the real-world information research skills

Vision Statement:

Our vision is to visualize the library as a model of excellence to be the leading research library in the region by promoting and providing quality library resources and services, engaging students and faculty, and empowering them through library collection, innovative services, and advanced technologies.

Strategic Goals of the Library:

1) Expand the library collection and information resources in various formats **(Collections).**
2) Enhance the library portal with the latest technology and digital infrastructures that advance research and education **(Services).**
3) Develop and deliver a quality instructional and information literacy program to support learning and lifelong information skills **(Educational Role).**
4) Support the university scholarly work by enhancing the gold open access services, implementing the new platform and application that increase worldwide visibility for KU authors and publication works **(Research)**
5) Develop an environment that fosters knowledgeable staff **(Training).**
6) Devise and implement an outcome-based assessment plan for individuals and groups who use the KU library **(Assessment)**

Strategic Direction:

Strategic Goal #1

Expand the library collection and information resources in various formats (Collections).

Strategic Objectives:

1. Support the reinforcement of existing and potential university academic programs

2. Sign a resources-sharing agreement (MOU) with the international Academic University library and identify new consortia opportunities within the UAE.

3. Expand the digital collections of E-books, reference materials, and electronic journals

4. Support the partnership with the department's college representatives to develop the library collections & resources that serve the colleges.

Strategic Goal #2

Enhance the library portal with the latest technology and digital infrastructures that advance research and education

Strategic Objectives

1. Modify and Improve library services through the library portal.

2. Increase the frequent traffic of the library website

3. Develop new widgets for the library portal and newsletter to automate the provision of information to users

Strategic Goal #3

Develop and deliver a quality instructional and information literacy program to support learning and lifelong information skills (Educational Role).

Strategic Objectives

1. Increase and diversify the number of courses provided to students

2. Promote Information Literacy to faculty and students through marketing and outreach activities

3. Revise and customize Information Literacy to reflect current curricula and research needs.

4. Review future trends in relevant educational methodology and technology for inclusion in Information Literacy development.

Strategic Goal #4

Support the university scholarly work by enhancing the gold open access services, implementing the new platform and application that increase worldwide visibility for KU authors and publication works (Research)

Strategic Objective

1. Continue to expand the open-access services, training, and Open Access publishing for KU researchers.
2. Implementation of research information management system to enhance the Khalifa University academic profile

Strategic Goal #5

Develop an environment that fosters knowledgeable staff (Training).

Strategic Objective

1. Attract talented librarians with experience and knowledge in the libraries (professional Librarians).
2. Offer ongoing training and development opportunities for library staff

Strategic Goal #6

Devise and implement an outcome-based assessment plan for individuals and groups who use the KU Library (Assessment).

Strategic Objectives

1. Conduct focus groups with selected students, faculty, and staff to evaluate library resources and services.
2. Conduct general survey of students.
