## OUR VISION

A more knowledgeable world

## OUR MISSION

To work at the heart of the knowledge industry building scholarly and research capacity through innovative coaching and technology

## OUR VALUES

Trust and responsibility

Collaboration

Outstanding service

# Report introduction

## Scope

- As a part of Knowledge E's ongoing support to its clients, Knowledge E will continue with the initiative to provide Khalifa University with a combined usage statistics report
- Knowledge E will share the usage report on a quarterly basis

## Usage reports

- Usage reports are measurements with an analysis on the amount of usage which may include page views, downloads through the subscribed e-resources
- This usage report will help to demonstrate the overall 2021 usage with the quarterly breakdown and comparison of 2020 usage
- The detailed usage statistics for each publisher will be provided as well upon request

# Our methodology

Our usage reports are built to give you actionable insights into how your organisation uses your current subscriptions.

Thus, the Knowledge E Client Excellence team has herewith outlined our data collection methodology.

1. Collect – Gather Counter 5 usage reports from publishers
2. Assess – Ensure that the publishers are using the same counter 5 reports as previously shared hereby to prepare the combined usage report
3. Analyse – All the collected quantitative data are analysed by comparing the current statistics with the previous quarter and the same quarter of last year
4. Evaluate – Data interpretation take place where the usage are explored in more details, have discussion with publishers when required
5. Final Report – The final report is produced with different metrices and insights

**Sessions:** are defined as a series of consecutive actions of one and the same user as identified by a unique session cookie that is accepted by the user. A session starts at the moment of a first request by a user and ends after 120 minutes of no activity.

**Active users:** are defined as users that made at least one-page request during that month and accepted a user machine cookie. This metric counts all active and distinct machine cookies.

**Regular searches:** count all implicit and explicit on-platform searches.

**Literature discovery:** is the sum of document record views and outward links to documents.

**Informetric use activity:** use counts the use of the Scopus research performance measurement tools.
