New Student Welcome:

Student Orientation Tutorial

The KU medical library is happy to welcome new students to the CMHS. To help students adjust to using the medical library at KU there is an online orientation guide. It covers the basics of library resources, the library website, and library services available to you. It also offers a short review quiz. The guide can be found at library.ku.ac.ae/med-orientation.

Research Skills:

Library Online Instruction

The KU library regularly offers online instruction that open to the entire campus. With the start of the new school year these sessions are starting up again. Two upcoming classes include:

- PubMed Workshop - Monday, Sept. 6 - 12 pm to 1 pm
- Web of Science Workshop - Wednesday, September 8 - 12 pm to 1 pm

You can see the full calendar at kustar.libcal.com. You are also free to reach to me at **jason.fetty@ku.ac.ae** for any individual instruction you might need as well.

Research Help:

Open Access Publishing

KU helps faculty cover expenses related to Open Access publishing in Q1 journals. The university currently has agreements with Wiley, ACS, and IEEE to publish a certain number of articles each year. You can find more information at library.ku.ac.ae/oa or contact the librarian overseeing the project, Walter Brian Hall, at **walter.hall@ku.ac.ae**.

Get Medical Library Help

As always, feel free to reach out to me at **jason.fetty@ku.ac.ae** if you need any help with research, have suggestions, or would like an instructional session. You can find the medical library's homepage at library.ku.ac.ae/med/.
