Introduction

This two-day intensive workshop, run on November 18th -19th 2022, marked the inaugural event of the series of workshops that are offered to SEHA's residents and healthcare professionals as a part of the KU-SEHA Clinical Research Certificate training program. The workshop's primary objective was to equip participants with introductory knowledge and skills crucial for effective clinical research. The workshop was delivered by four faculty members from the College of Medicine at Khalifa University: Dr. Abderrahim Oulhaj, the Director of the CRC program, Dr. Basem Al-Omari, Dr. Mohamed Rahmani, and Dr. Saleh Ibrahim.

To commence the workshop, we held a formal opening ceremony graced by the presence of distinguished guests who delivered inspiring and motivating remarks. These notable personalities include Dr. Bayan Sharif, Provost of Khalifa University, Dr. Ebrahim Al Hajri, Senior Vice President of Support Services at Khalifa University, Dr. Senthil Rajasekaran, Dean of the College of Medicine and Health Sciences at Khalifa University, and Dr. Ghanem Ali Al Hassani, Group Education Director at SEHA. We were also honored by the attendance of Dr. Bushra Qaed Ahmed, SEHA Corporate Clinical Education Manager.

Participants

The workshop garnered participation from a cohort of 120 residents and fellows in diverse stages of clinical training across SEHA facilities, comprising Sheikh Khalifa Medical City (SKMC), Sheikh Shakhbout Medical City (SSMC), Tawam Hospital, and Ambulatory Health Services (AHS). Kindly refer to Appendix 1 for a detailed schedule and timetable of the workshop.

Feedback

The overwhelmingly positive feedback we received from the participants of the workshop highlights the success of the event. With feedback from 48 participants, we found that almost every single participant felt that the workshop was well-designed, highly informative, and crucial for their career as future physician researchers. This feedback resulted in a satisfaction rate among participants exceeding 95%, indicating that the workshop was a resounding success. Furthermore, participants expressed their gratitude to the instructors and provided glowing written feedback on both the content of the workshop and its delivery. Please refer to table 1 and figure 1 for a summary of participants' ratings, and table 2 for specific participants' free-text comments and feedback.

Table 1: Participants' evaluation of each item

Items	**Percentage of participants who agree or strongly agree**
The Workshop's learning outcomes were well defined	98%
The Workshop's learning outcomes were met	96%
The Faculty's knowledge of the subject is remarkable and relevant	98%
The Faculty's responses to my questions were relevant and applicable	100%
The workshop was well organized	96%
Attending this workshop has motivated me to do clinical research	91%
The Workshop has met my expectations	96%
This workshop is very important to me	91%
My overall impression of the workshop is outstanding	96%
I will recommend this workshop to others	93%

Figure 1. Detailed Participants' evaluation for each item

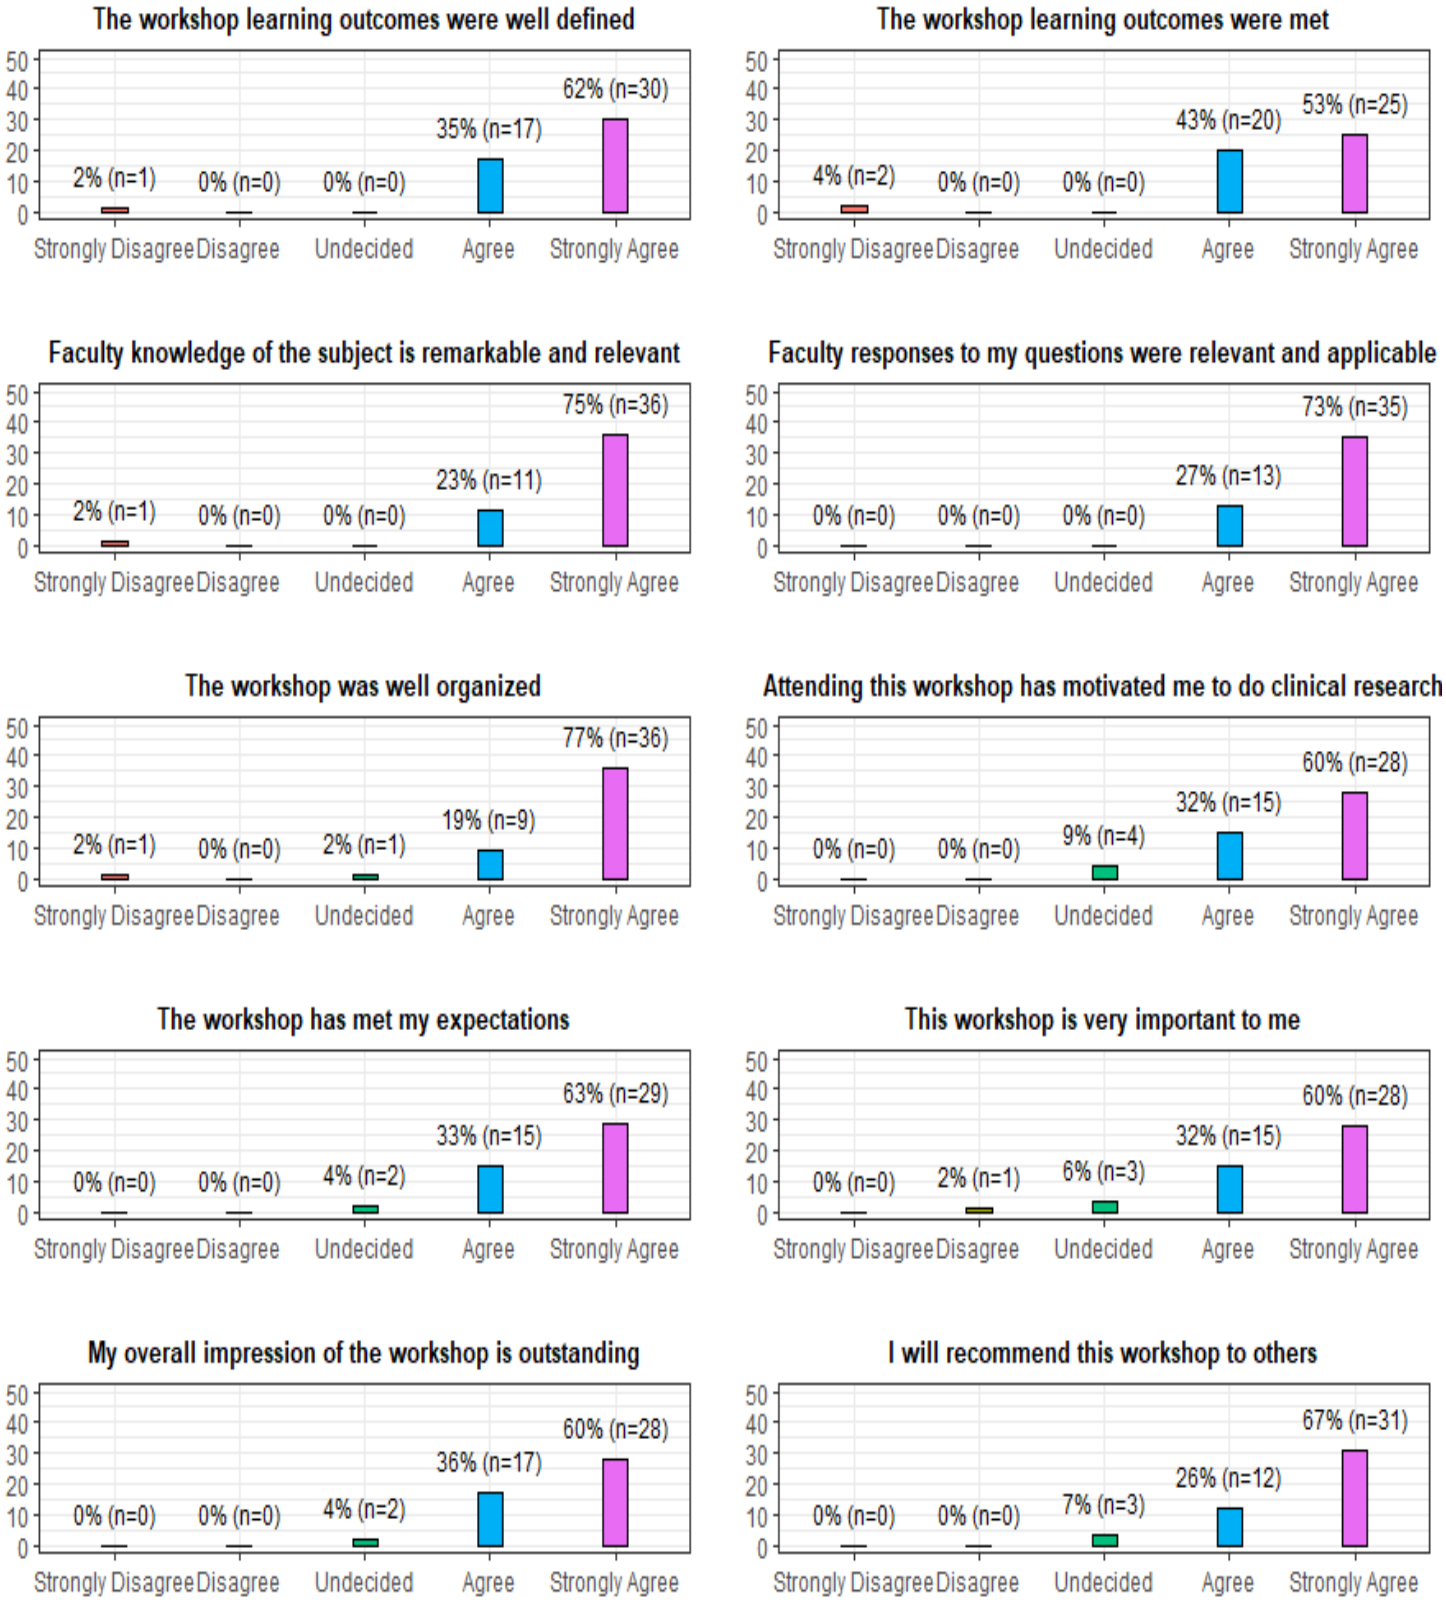

Table 2. Participants' free-text comments and feedback

Student id (anonymised)	Comments
1	*"Very organized and good chance to learn, very kind and helpful teachers*
2	*Great workshop"*
3	*"The couse is very useful and really adds to our knowledge and improves our research skills"*
4	*"Thank you!"*
5	*"excellent"*
6	*"Very good"*
7	*"Thank you for your efforts"*
8	*"As a fellow I would like to conduct a research of my own"*
9	*"thanks for giving us this great opportunity"*
10	*"Very educational"*
11	*"This is an opportunity not to be missed!!!"*
12	*"Very well organized and executed."*
13	*"Very well organized program and useful"*
14	*"I am not sure how applicable is this, to have an email after each day we attend that mention the point that needs to be completed/done/submitted since we may miss doing them while attending out usual work."*
15	*"for us al ain residents if it is possible to make our classes online. The course is excellent."*
16	*"Great devoted faculty, Well organized workshop of high quality material provided"*
17	*"Amazing"*
18	*"Thank you for the hard work"*
19	*"The course is really beneficial, however the individual class on Monday was not really a practical session and we were promised. I wish to combine the practical sessions all together and not to give lectures during the individual classes. Thank you for the great efforts."*

Appendix 1: Workshop timetable

Day 1: Friday 18th of November 2022			
Topic	**Activities**	**Time**	**Speaker**
Registration and Welcome	Registration and Breakfast	8:00 - 8:30	All participants
	Opening	8:30 - 9:00	TBA
Overview of the Clinical Research Program	The program objectives & learning outcomes	9:00 – 10:00	Dr. A. Oulhaj
	The structure of the program		
	The mode of delivery & expected outcomes		
	Supervision & mentoring		
	Learning outcomes and timetable of the workshop		
Participants' background	Participants' views of clinical research	10:05 – 10:25	Dr. A. Oulhaj & All participants
Coffee Break – 20 minutes (10:25-10:45)			
Introduction to Clinical Research Methodology	The importance of clinical research and its values for clinicians	10:45 – 11:30	Dr. M. Rahmani
	Types of clinical research		
	Stages required to conduct a clinical research (*Planning, Execution & Reporting*)	11:30 – 12:00	Dr. A. Oulhaj
	Planning stage of a clinical research *(Research question, Target population, Power and sample size calculation, Statistical analysis plan, etc.)*		
	Potential bias in clinical research: *Type of Bias, Confounding, How to tackle Bias and confounding.*	12:00 – 12:30	Dr. A. Oulhaj
Lunch & Friday prayer – 75 minutes (12:30-13:45)			
Evidence-based medicine	Introduction to evidence-based medicine	13:45 – 14:15	Dr. B. Al-Omari
	Steps of evidence-based medicine		
Research question & hypotheses development	Conceptualizing and developing research questions & hypotheses	14:15 – 14:45	Dr. K. Ahmed
	Choosing the appropriate study design for a given research question	14:45– 15:15	Dr. B. Al-Omari
Coffee Break – 15 minutes (15:15-15:30)			

Literature Search – *Methodological aspect*	The importance of literature search	15:30– 16:15	Dr. S. Ibrahim Dr. B. Al-Omari
	The process of conducting a literature search		
Closing of Day 1			
Day 2: Saturday 19th of November 2022			
Topic	**Activities**	**Time**	**Speaker**
Registration and Welcome	Registration and Breakfast	8:00 - 8:30	All participants
Literature Search – *Practical aspect*	Designing the search strategy & developing keywords	8:30 – 10:00	Dr. B. Al-Omari Dr. S. Ibrahim
	Choosing the database to carry out the search		
	Conducting the search & evaluating the results		
	Refining the search strategy		
	Exporting the selected articles		
Coffee Break – 15 minutes (10:00-10:15)			
Introduction to critical appraisal of medical research	Introduction to critical appraisal	10:15 – 11:15	Dr. B. Al-Omari
	Appraising clinical research papers		
	Some examples		
Writing the literature review	Components of Background section	11:15 – 12:30	Dr. M. Rahmani
	Compiling the findings from the search results		
LUNCH – 45 minutes (12:30-13:15)			
Research Ethics	Ethics of Human Experimentations	13:15 – 15:00	Dr. K. Ahmed
	Research Integrity & Authorship Ethics		
	Writing and submitting an IRB		
	GCP training		
Coffee Break – 15 minutes (15:00-15:15)			
Course management & Logistics	Black Board Platform	15:15 – 16:00	KU learning center
	Communications		
End of Workshop
