To: **Dr. Aisha Jasim Al Ali**
National Emergency Crisis & Disasters Management Authority (NCEMA)

Subject: Artificial Intelligence in Emergencies and Crises

Greetings from the Continuing Education at Khalifa University.

Continuing Education Department present this commercial proposal for Artificial Intelligence in Emergencies and Crises a tailored training course for NCEMA employees it covers the fundamental aspects of classic and modern Artificial intelligence. Topics include solving problems by searching, decision tree and machine learning.

The table below highlight details and prices according to the training course outline:

S.N	Course Title	Max. No Participants	Course Delivery Date	No. of Days	Venue	Language of Delivery	Training Course Fee
1	Artificial Intelligence in Emergencies and Crises	20	26-28 October 2022	3- day	KU Main Campus	English	**AED 51, 500.00** (VAT exclusive)

*** Prices includes: Training materials, catering services and certificates of attendance and etc..

Best Regards,

Dr. Ebrahim Al Hajri
SVP Support Services & Director Continuing Education

Course Title: Artificial Intelligence in Emergencies and Crises

Course Overview:

This course covers the fundamental aspects of classic and modern Artificial Intelligence. Topics include solving problems by searching, decision tree and machine learning.

Learning Outcomes:

1. Discuss and describe the meaning, and the scope of the Artificial Intelligence.
2. Analyze search problems and use various search techniques to solve real-life problems.
3. Apply and implement decision and classification techniques.
4. Design basic machine learning systems and use them to solve classification problems.

Who should attend?

Students, Graduates, Professionals, and anyone seeking expertise in artificial intelligence concepts and its applications. Programming experience is recommended but not necessary.

Outline:

1. AI: General Introduction (1 session)
2. Uninformed Search Techniques (2 sessions)
3. Informed Search Techniques (3 sessions)
4. Decision Tree (2 sessions)
5. Machine Learning (4 sessions)

Instructors:

Dr. Naoufel Werghi received his Habilitation and Ph.D. in Computer Vision from the University of Strasbourg. He has been a Research Fellow in the Division of Informatics at the University of Edinburgh, and Lecturer in the Department of Computer Sciences at the University of Glasgow. Currently, he is Full Professor at the Electrical Engineering and Computer Science Department in Khalifa University. He has been a Visiting Professor at the University of Louisville, University of Florence, University of Lille, the Children National Health System in Washington, the Korean Advanced and Institute of Sciences and Technology, and the University of Canberra.

He is the co-leader of the Artificial Intelligence and Data Analytics Theme in the Cyber-Physical Security System Center (C2PS), and project leader in Khalifa University Center for Autonomous Robotic System (KUCARS).

His research interests span computer vision and machine learning where he has been leading several funded projects related to biometrics, medical imaging, remote sensing, surveillance, and intelligent systems. So far, he secured 23 research grants and published more than 180 journal and conference papers.

He has been member of the organization committee in many conferences including the Midwest symposium on circuits and systems (2013) and the International Conference on Image Processing (2020). He served as the viceChair of the IEEE communications and signal processing UAE chapter in 2017, He is also Associate Editor of the Eurasip Journal for Image and Video Processing.

Education:

- Habilitation, Computer Vision, University of Strasbourg (France)
- PhD, Robotic Vision, University of Strasbourg (France), 1996
- MSc, Instrumentation and Control, University of Rouen (France), 1993
- Eng. Diploma, Electrical Engineering, Ecole Nationale Ingenieurs Monastir (Tunisia), 1992

Teaching Areas:

- Artificial Intelligence
- Deep Machine Learning
- C++/Matlab Programming

Research Interests:

- Machine learning
- Computer vision and 2D/3D image analysis with application to biometrics
- Surveillance
- Medical imaging and remote sensing

Dear Dr. Aisha,

Hope this email finds you well. Thank you for contacting Khalifa University for your training course requirement.

Continuing Education pleased to present this proposal for **Artificial Intelligence in Emergencies and Crises** on 26-28 October 2022. Please find the attached training proposal with course fee.

We look forward for your positive response.

Thank You,

From: Aisha Jasim Al Ali <AJAli@ncema.gov.ae>

Dear Dr. Aisha,

Thank you for your email and confirmation.

We would like to request if possible to change the date of the training course on 25- 27 October. As the faculty has international conference from 16- 22 October.

Please confirm the proposed dates, in order for us to prepare the proposal accordingly.

ok

Dear Dr. Aisha,

Greetings from the Continuing Education at Khalifa University and thank you for contacting KU for NCEMA training requirement.

With regards, to your conversation with Mr. Hesham Salem, Continuing Education is pleased to present this course outline for **Introduction to Artificial Intelligence** training course.

We look forward to your positive response.

Thank You,
