Extenuating Circumstances / Identified Factors / Special Conditions Simulated:

It was a planned medical drill with sequences of the drill in line with the objectives mentioned above under surveillance of KU FM and EHS staffs. On 21st October around 2:00 PM, Sathyam - Cleaner (acting IP) slipped in staircase and fallen down on the floor with catching right leg while shifting materials to store along with Osman Gani - Cleaner (Witness). Once confirmed the IP's Leg pain, the witness immediately called KU Help Desk, first aider and ERO (West Coast Site Supervisor) and explained about the incident and shared the exact location to arrange and get the medical support and further guidance. Upon receiving the information from the witness, the first aider and emergency response team without any delay reported at the incident location with the required emergency assistance. After reaching the spot, the West Coast first aider found swelling on IP's right ankle, then he (first Aider) providing the required aids and first aid treatment for IP. later first aider recommends the injured person to send into the nearest hospital for proper medical attention, Then IP was transferred into medical wheelchair and went to the nearest Clinic /hospital through Vehicle, the situation control at around 2:15 Pm.

Time

02:00.00 – The employee fallen
02:00.30 – The witness called KU help desk and first aider
02:02.10 – The witness called ERO
02:12.07 – The first aider & ERO reported the spot and First Aider start aiding
02:14.40 – Declared IP's condition is stable and advised to transfer to clinic / hospital.
02.15.25 – The ERT transferred IP to in a wheelchair and shifted him to clinic through Vehicle

RECOMMENDATIONS FOR IMPROVEMENT

Observations: 1) The first Aider was reported only after 11 minutes of incident reported
2) ERO Called the Emergency Vehicle after taking the cleaner to G floor instead of Calling earlier

Corrective action: 1) Need to conduct a training or site familiarization walk for the workforce
2) Induction on Medical Emergency Evacuation need to be given for work force
