Internal Audit Report
Review of Budgeting and Reporting

Internal Audit Department
Khalifa University of Science and Technology
November - 2023

Ref: KU/2023/IAD-146

November 2023

MR. Jalal El Jazzar

Senior Vice President, Finance and Investment

Khalifa University of Science and Technology

We have completed our review of the Budgeting and Reporting. The review was conducted during September – October 2023 covering the period from January 2022 to June 2023.

The objective of our audit was to review the adequacy and effectiveness of internal controls system and procedures; and to ensure compliance with operating policies and procedures, laws, regulations, and standards.

We have discussed the contents of our report, including our recommendations, with the respective processes' owners and where relevant we have incorporated their comments and action plans to remediate our findings.

I would like to draw your attention to the issues highlighted in the executive summary, where opportunities for improvement were highlighted.

Yours Sincerely,

Abdulaziz Alkhoori

VP, Audit

1. Executive Summary

1.1. Introduction

We have completed the Review of Budgeting and Reporting, in line with the Approved Internal Audit Plan and Audit Engagement Memorandum Dated July 2023. The Internal Audit Findings / Improvement Opportunities to address associated risks / control gaps were identified and reported as part of this report.

1.2. Scope of Work

The Scope of Work comprised of the following areas:

- Governance and Compliance;
- Budget Planning; budget interpretation, communication and guidance;
- Budget collection, development and validation;
- Budget finalization, approval, monitoring and control.

1.3. Audit Objectives

The Objective of this review is to provide independent and objective assessments of business processes and system of internal controls, level of compliance with policies and procedures, and achievement of desired objectives.

1.4. Audit Process

The following are the key Audit Steps undertaken by the IA Department:

- Gain an understanding of the processes of the areas covered in the scope listed above.
- Reviewed adequacy and effectiveness of internal controls system and procedures.
- Reviewed compliance with the policies and procedures, laws and regulations.
- Agreed with process owners on action plans to improve control effectiveness / process performance.

1.5. Summary of Audit Findings

Controls need to be enhanced for **29%** of the observations. A balance of **43%** is within the moderate range and **29%** is within the low range and needs to be monitored and prevented from entering the high-risk category and moderate range as applicable.

Please refer to Appendix 1 for detailed Ratings

The audit findings found during the review are summarized below. It should be noted that we have reported only on the exceptions detected during the course of our review.

1. Discrepancies in Hyperion Access for Users

   There are access control issues in the Budgeting & Reporting Section, as one external user and two former employees can raise budget transfers, with one former employee also retaining approval access for budget transfers, highlighting the importance of timely account deactivation and access management.

2. Lack of Board of Trustees (BoT) approval prior to Budget Submission to Department of Finance (DoF):

   The Delegation of Authority (DoA) mandates Board of Trustees (BoT) approval before budget submission to Department of Finance (DoF), yet for 2022 and 2023, the budget was sent to DoF prior to securing BoT approval, revealing a deviation from the established protocol and lack of alignment with the DoA.

2. Background

The Budgeting and Reporting Section is currently a separate Section under the Finance Department headed by VP Finance and Budget. The main purpose of Budgeting and Reporting Section is to oversee the budget development and control process and provide proper and timely reporting to Management on the up-to-date budget status (Budget vs. Actual).

The activities undertaken by the Budget and Reporting Section cover several types of activities such as: budget interpretation, communication & guidance, budget collection & development, budget assessment & prioritization, budget finalization & approval and budget monitoring & control.

Budget and Reporting Section Structure

The organization structure for the Budgeting and Reporting section at KU consists of 5 staff members.

Budget and Reporting Section Main responsibilities

The main responsibilities of the Budgeting and Reporting section are as follows:

- Manage annual budget planning activities
- Communicate budget guidelines and instructions to the departments
- Manage and review the consolidation of all the University budgets in compliance with approved guidelines
- Prepare consolidated budget to be presented to the University's Directors and management for internal approval
- Communicate the final approved budget to all budget owners internally
- Monitor actual spending
- Manage all University's budget transfers
- Manage the preparation and submission of analytical reports for management

3. Detailed Audit Findings

Low	1.	Policies & Procedures

Risk Ref: KU-BG-01

Observation/Process Enhancement

Periodic Review / Update of Budgeting Policies and Procedures:

As per the Document Control Procedure "KUP 6000", Section 8, next scheduled review of Budgeting Policy was 01 January 2022. However, it has not undergone the review as outlined in the Document Control Procedure and remains in a draft phase.

The SVP- Finance and Investment approved the Budgeting Procedure document as per the DoA on 13 March 2023. However, on review of the Budgeting Procedure we noted the following:

- The draft Policy & approved Procedure gives multiple reference to Vice President- Finance & Business Development, whereas the Budgeting & Reporting section reports to Vice President– Finance & Budget.
- The references to sections and clauses lack standardization, leading to potential confusion or misinterpretation.
- The Document Control Procedure does not specify the next scheduled review for the Budgeting Procedure.

Recommendation

- Initiate a review of both the Budgeting Policy and the Budgeting Procedure to ensure consistency, accuracy, and alignment with the organizational structure.
- Standardize section and clause references within the Budgeting Procedure to enhance clarity and reduce the potential for misinterpretation.
- Revise the Document Control Procedure to explicitly define the next scheduled review date for the Budgeting Procedure.

Management Action Plan

Management Action Plan :

Policies and procedures have already been updated and communicated to IRP Office in order to obtain the approvals as per DoA.

Responsibility:

IRP – obtain the approvals as required.

Timelines:

Next ExCom meeting

High 2. Access Rights

Risk Ref : KU-BG-05

Observation/Process Enhancement

Discrepancies in Hyperion Access for Active Users

Access to ADERP Hyperion system for the Budget module is restricted to the Budgeting & Reporting Section. On review of active users with access to the Budget module in ADERP Hyperion the following discrepancies were noted:

- 1 user has access to raise Budget transfers in ADERP Hyperion system but not part of the Budgeting & Reporting section.

Employee No.	Designation	Access right
100035664	Manager, GL & Projects	ADEXE -> ADEXE Internal Transfers

- 2 former employees continue to retain access to raise budget transfers in the ADERP Hyperion system.

Employee No.	Designation	Access right
1595	Former Employee	ADEXE -> ADEXE Internal Transfers
PI3214	Former Employee	ADEXE -> ADEXE Internal Transfers

- 1 user has access to approve Budget transfers in ADERP Hyperion system but not part of the Budgeting & Reporting section

Employee No.	Designation	Access right
100040963	Director Finance Operations	ADEXE -> ADEXE Department Approvers 01

- 1 former employee continue to retain access to approve Budget transfers in the ADERP Hyperion system.

Employee No.	Designation	Access right
100035586	Former Employee	ADEXE -> ADEXE Department Approvers 01

Recommendation

- Conduct a thorough review of access permissions within the ADERP Hyperion system to ensure that only authorized users, have access to raise and approve budget transfers.
- Immediately revoke access for former employees who are no longer associated with the organization.
- Establish a routine access audit process to verify compliance with access policies and take timely corrective actions as necessary.

Management Action Plan

Management Action Plan :

A comprehensive review of the access rights has been performed recently, any incompatible access rights have been revoked.

Responsibility:

Budgeting & Reporting Section.

Timelines:

Addressed.

High 3. Budget Creation & Approval

Risk Ref : KU-BG-08

Observation/Process Enhancement

Lack of Board of Trustees (BoT) approval Prior to Budget Submission to Department of Finance (DoF):

The Delegation of Authority (DoA) mandates obtaining the approval or endorsement of the Board of Trustees (BoT) prior to submission of Budget to the Department of Finance (DoF). On review of the Budget timelines for submission of Budget to DoF and approval of BoT we noted the following:

- In the case of the 2022 budget, the Board of Trustees granted approval on 27 September 2021, while the budget was submitted to the Department of Finance on 27 July 2021, a date significantly prior to the BoT's endorsement.
- Similarly, for the 2023 budget, the Board of Trustees' approval was secured on 27 October 2022. Nonetheless, the budget was submitted to the Department of Finance on 07 July 2022, well in advance of the BoT's approval date.

Recommendation

Ensure adherence to the Delegation of Authority (DoA), which mandates obtaining the approval or endorsement of the Board of Trustees (BoT) before the submission of budgets to the Department of Finance (DoF).

Management Action Plan

Management Action Plan :

This issue occurs due to challenges related to scheduling of BoT meetings and the stringent timelines of DoF for submission of Annual Budget. However, the matter will be raised to KU Management for direction.

Responsibility:

VP Finance / SVP Finance and Investment.

Timelines:

30th of June 2024.

Medium 4. Budgetary Controls

Risk Ref : KU-BG-10

Observation/Process Enhancement

On analysis of the Budget performance report available from Oracle Business Intelligence (OBI), we noted the following discrepancies:

- **GL Line item with Actual amount greater than Revised Budget:**

  The ADERP system has absolute control in reviewing the budgetary limits of each account code. The PR/Invoice processing are initiated if there are sufficient funds available in the account codes. If sufficient funds are not available to initiate the transaction, then fund issues are flagged, and the transactions cannot be completed unless a budget transfer is initiated.

  However, during the year 2022 we noted that the fund available balance was negative in 1 GL Line item (refer table below). Thereby, highlighting the possibility of bypassing ADERP system control.

Year	Chapter	GL Account Combination	Annual Budget	Revised Budget	Actual Amount	Fund Available
2022	Chapter 2	847.8470140.1.425550.000000.847001.200179	791,955	59,402	64,327	(4,925)

- **GL Line items having PR value negative:**

  The ADERP system incorporates a budgetary control mechanism that includes a fund availability check before the initiation of any Purchase Requisition (PR) or Purchase Order (PO). This fund availability assessment is determined by subtracting the Actual amount spent, Open PR, and Open PO from the Annual/Revised Budget value.

  Upon reviewing the Budget performance report for the year 2023, it was noted that certain PRs and POs were raised with negative values. This situation poses a concern, as it could potentially lead to the utilization of a budget exceeding the specified actual or revised budget, which may result in budgetary overruns. A summary of the same is as below:

Year	Count of GL Line items	Total value of PR
2023 (up to 16th October)	51	(8,732,683)

Refer to **Appendix 2** for further details.

Year	Count of GL Line items	Total value of PO
2023 (up to 16th October)	2	(208,302)

Refer to **Appendix 3** for further details.

- **GL Line items having Actual spent value negative:**

  On review of the Budget performance reports for the years 2022 and 2023, we observed that certain actual spending figures were recorded with negative values. This situation is a cause for concern as it has the potential to result in the expenditure of a budget that exceeds the specified actual or revised budget, which in turn could lead to budgetary overruns.

  Furthermore, in some cases, it was observed that the Approved Budget had been transferred to the extent of the negative actual spending values, leading to a conversion of the Revised Budget into a negative figure.

  A summary of these instances is provided below:

Year	Count of GL Line items	Total value of GL Line items
2022	15	(2,238,342)
2023 (up to 16th October)	24	(1,797,490)

Refer to **Appendix 4** for further details.

Recommendation

- Strengthen the ADERP system controls to prevent the possibility of bypassing, ensuring that all transactions comply with budgetary limits.

- Implement measures to prevent the initiation of PRs and POs with negative values to avoid potential budget overruns.
- Implement robust budget monitoring practices to prevent negative actual spending figures, which can lead to budgetary overruns. Establish stricter controls over the approval and execution of budget transfers, ensuring they align with financial prudence and do not exacerbate negative budget scenarios.

Management Action Plan

Management Action Plan :

This issue has already been raised to DoF in February 2023 and subsequently, the action to remediate this issue has been taken by DoF in October 2023.

Responsibility:

Budgeting & Reporting Section.

Timelines:

Addressed.

Medium 5. Budget Revision

Risk Ref : KU-BG-13

Observation/Process Enhancement

Non-Compliance with DoA Authorization in Personnel Budget Reallocation

Budget transfers and reallocations are initiated within the E-services portal, which serves as the central platform for these financial actions. The approval processes for these transfers adhere to the established workflow in the system and align with the Delegation of Authority (DoA) framework, ensuring proper governance and accountability. The below is the extract of the DoA for the Budget transfers and reallocations:

Sr. No	Budget Transfer	Endorse Review	Approve
1	Between Chapters	BFIC	BoT (As per EC guidelines)

Sr. No	Budget Reallocation within Chapter	Endorse Review	Approve
1	Up to 1,000,000 AED	VP Finance	Head of Finance
2	1,000,000 – 2,500,000 AED	Head of Finance	President
3	2,500,000 – 10,000,000 AED	President, Head of Finance	EXCOM
4	Above 10,000,000 AED	EXCOM, President, Head of Finance	BoT

Once the approvals are obtained on the E-services portal, the Budget and Reporting Specialist or Accountant raises a request for the transfer/reallocation of the Budget in the ADERP Hyperion system. The Budget transfer/reallocation is completed only after the request is approved by Manager- Budgeting and Reporting approves it in the ADERP Hyperion system.

On review of the Budget reallocations, it was noted that for Chapter 1- Personnel Budget reallocations are executed directly in the ADERP Hyperion system based on email communications received from the HR Planning team. This practice of reallocating the Personnel Budget bypasses the authorization stipulated in the DoA, proceeding without securing prior approvals through the E-services portal.

Details of the Chapter 1- Personnel Budget reallocations are as summarized below:

Year	Count of reallocations	Total value of reallocations
2022	65	81,854,104
2023 (up to 6th October)	60	74,290,819

Recommendation

- Implement a formalized process for requests and approvals regarding Chapter 1- Personnel Budget reallocations, ensuring they align with the DoA.
- All Budget transfer requests to be raised through the E-services portal.

Management Action Plan

Management Action Plan :

Formal advice from the Legal Counsel will be sought to address this matter.

Responsibility:

Budgeting & Reporting Section.

Timelines:

30th of June 2024

Low 6. Budget Reporting

Risk Ref : KU-BG-14

Observation/Process Enhancement

The Budgeting Procedure document requires the "Manager Budgeting & Reporting to submit the report on significant variances, along with the comments received from the Heads of respective Cost Centers to the Vice President- Finance & Budget for review. After the budget performance is reviewed, it is shared with senior management."

On review of the current practice, it was informed that on a quarterly basis the Budget v/s Actual variances along with the comments are shared with the Vice President- Finance & Budget for review. However, it is not shared with the Senior Management, we were informed that the reports are not circulated since they have access to Oracle Business Intelligence (OBI) dashboard.

Further, on review of the Budget Monitoring report shared for Q2 – 2023, it was noted that the following KPIs highlighted in the Budgeting Procedure were not included as part of the report shared with Vice President- Finance & Budget:

- Projection till end of the year (as feasible).
- Net unexpected surplus / deficit (if any) by year end.

Recommendation

- Ensure that the reports on Budget vs. Actual variances, along with comments, are shared not only with the Vice President of Finance & Budget but also with Senior Management as outlined in the procedure.
- Incorporate the missing Key Performance Indicators (KPIs) into regular Budget Monitoring reports, specifically focusing on projections till the year-end and net unexpected surplus/deficit.

Management Action Plan

Management Action Plan :

We will explore the possibility of enhancing the existing OBI Dashboard to address the audit requirements.

Responsibility:

Budgeting & Reporting Section.

Timelines:

31st of March 2024.

Medium 7. Budget Revision

Risk Ref : KU-BG-13

Observation/Process Enhancement

- On an overall review of the Budget Transfers, it was noted that there has been a tremendous increase in the count of Budget transfers over the years and in value.

  Details of the same are as follow:

Year	Count of transfers	% Increase in count	Total value of transfers	% Increase in value
2019	81	-	119,315,685	-
2022	205	153%	238,868,706	100%

	Year 2022			Year 2023		
	Budget	Value of Transfers	%	Budget	Value of Transfers	%
Chapter 1	610,207,000	81,854,104	13%	677,000,000	74,290,819	11%
Chapter 2	592,955,000	124,211,394	21%	712,000,000	85,864,732	12%
Chapter 3	110,301,000	32,803,208	30%	160,800,000	22,648,979	14%
	1,313,463,000	**238,868,706**		**1,549,800,000**	**182,804,530**	

- As part of the review, we requested a sample of 25 Budget transfer request approvals to assess their alignment with the DoA. The DoA outlines the following thresholds:

Sr. No	Budget Reallocation within Chapter	Endorse Review	Approve
1	Up to 1,000,000 AED	VP Finance	Head of Finance
2	1,000,000 – 2,500,000 AED	Head of Finance	President
3	2,500,000 – 10,000,000 AED	President, Head of Finance	EXCOM
4	Above 10,000,000 AED	EXCOM, President, Head of Finance	BoT

  A further sub-delegation was laid down authorizing VP Finance approval up to AED 250,000 and Manager - Budgeting and Reporting approval up to AED 50,000

  For the 9 sample Budget transfer request raised in the Hyperion a total of 60 Budget Transfer request (BTR) were raised in E-services portal or via email. Following discrepancies were noted on the review of the sample BTRs:

  ✓ 3 out of 15 BTRs (valued up to AED 50,000) were requested as well as Manager - Budgeting and Reporting leading to absence of segregation of duties. Refer to **Appendix 5.** for further details.

  ✓ 1 BTR of up to 2.5 Mn AED have been approved by SVP Finance, DoA specifies that approvals for such amount to be authorized by the President. Refer to **Appendix 6.** for further details.

  ✓ 1 BTR of above 10 Mn AED have been approved by SVP Finance, according to the DoA, approvals for amounts at this level should be obtained from the Board of Trustees (BoT). Refer to **Appendix 7.** for further details.

Recommendation

- Ensure that the approvals for budget transfer are obtained as per DoA and all supporting documents maintained for all budget transfers. Such documents shall be adequately reviewed prior to processing transfers.
- Implement a practice in which the budget transfer request (BTR) number from the E-services system is associated with the corresponding entry in the ADERP Hyperion system during the initiation of the budget transfer.
- Strengthen the budget creation process to minimize the need for extensive budget transfers, ultimately reducing the overall volume of such transactions.

Management Action Plan

Management Action Plan :

Process will be enabled ensuring that the controls related to segregation of duties are mandated in the E-services portal. Further, exceptions to DoA, will be clarified and included as part of the Budget Procedure.

Responsibility:

Budgeting & Reporting Section.

Timelines:

31st of March 2024.

Appendices

Appendix 1 - Findings Rating

The audit findings have been grouped together in a logical manner to appropriately convey the risk and impact. The audit findings have been categorized based on their criticality rating as **High**, **Medium** and **Low**. The definitions of the findings criticality / distribution are provided in the table below

	Finding Rating	Definition	Number of Findings	Total
●	High	Finding is serious and deserves immediate attention by the Process Manager. The finding is reported to the Audit Committee quarterly.	2	7
●	Medium	Finding impacts the accomplishment of the Process objectives. Corrective action is required by management. If not resolved, the finding could result in inefficient use of entity resources and or potentially disrupt business processes.	3	
●	Low	Finding to be reported to Management but is of a minor risk to the entity. Findings will not be reported to the Audit Committee unless the finding remains open after the follow up audit.	2	

Appendix 2 - List of GL Line items having PR value negative

Sr. No	Chapter	Cost Center Code	Account Code	Annual Budget	Revised Budget	Actual Amount	PR	PO	Fund Available
