Attendees / Invited Members		

Agenda items Minutes of Meeting

Dr. Abdel Qader to work with Dr. Wesley to organize R&D review days and have Strata, SANAD and ARIC to present the projects they are doing (AA suggested to plan it early next year during the new agreement signing, this will help communicate the new ARIC scope)

- Dr. Wesley & Dr. Yahya to share the proposed ARIC marketing plan with Sayed Al Hashmi and Strata communication (Shared , comments to be shared)
- Dr. Sami to present during next SMB meeting the evaluation of the ARIC IP. Relevant Tremonti reports are to be shared with the SMB at least two weeks in advance (Postponed to the next SMB Meeting)
- The SMB members agreed to keep the job search going for the additive manufacturing lab engineer in addition to Tareq Farrah. (Tareq attended the training in EOS in Sep 2022)
- To leverage training for existing people to send them with Tariq Farrah as relevant (we were not able to send someone this time due to the training cost)
- Dr. Wesley to check the status of Mariam Aldhaheri ‘s Press release and update the SMB (a press release will be sent soon)

- Dr. Steve to notify the HR regarding Dr. Yahia's appointment as ARIC deputy Director (Completed)
- Dr. Wesley to invite Mariam Aldhaheri to do presentation to go thru the progress in order to maintain project and conduct an assessment (completed)
- Dr. Yahya to present some of the industrial solutions in the upcoming SMB (Completed)

Outcome & Action Items (to be completed prior to next SBM)

Update on ARIC Marketing Plan:

- ✓ The marketing and publicity plan has been sent to Sayed and his team, the only concern is the budget. YZ proposed the budget of 15k which can be owned by ARIC.
- ✓ A LinkedIn committee has been established including the following:
  - Pradeep George
  - Yusra Abdulrahman
  - Abdulla Ayyad
  - Mohammed Alkrunz

The SMB Members agreed that:

- ✓ WC to share the ideas with the SMB Members.
- ✓ SG suggested that WC inform Sayed to have a longer segment about ARIC.
- ✓ SG asked to prepare a video to showcase ARIC achievements.
- ✓ AA stressed to use the time of the agreement renewal to be part of the release, highlighting the story of the center, and to have HR.
- ✓ SG asked to accelerate the press release about ARIC.
- ✓ WC to contact Sayed to move forward with the video preparation.
- ✓ AA suggested to highlight the link between ARIC & HUB71, how does ARIC fit into the innovation pipelines in the press release.

Updates on Staffing Issues in ARIC

- ✓ Dr. Yusra joined the ARIC team.
- ✓ Abdulla Ayyad's request for a salary increase has been sent to the URC
- ✓ ARIC staff members are going thru contract renewal
- ✓ 6 National services recruits are now working full-time in ARIC

Update on ARIC Equipment usage

- ✓ AA asked about the composite areas use in the ARIC facility as he observed that people are doing research all the time but they are not in the lab.
- ✓ AA stressed on the need to ensure to revive activities related to composites.
- ✓ AA advised that WC thinks on how to move forward, to plan if extra hiring required and how to conduct more activities in the composite to ensure to take more composites.

Update on ARIC Budget

- ✓ Not enough money to cover the November salaries.
- ✓ WC to schedule an meeting for SG & AA to discuss.

Update on RIC-2D External call

- ✓ AA requested to engage the SMB members for proposals relevant to ARIC.
- ✓ AA mentioned that the proposal for Graphene includes multiple sectors in addition to aerospace.

ARIC post-November 2022

- ✓ The funding has been increased from 2m per year to 5m per year (with further funding expected), it will be significantly higher, the scope has been changed.
- ✓ The new opportunity to plan further, is to incorporate energy and health case as a new teams
- ✓ AA mentioned that this is a great opportunity talking of new area of research with 4 engagements and bigger footprint
- ✓ YZ proposed to look to the new developed technologies, in order to tackle other type of publication, AA endorsed this comment and asked YZ & WC to put a budget once an agreement is in place.
- ✓ AA asked YZ & WC to prepare a wish list project (additive, composite, robotics and automation) with no limitation to aerospace, to help the SMB know the research plans for next year and what will be the proposed budget.

AOB

- ✓ AA to indicate TRLs for Sanad projects to indicate deployment readiness
- ✓ SG asked WC & YZ to send the SMB materials a week in advance of meetings
- ✓ SG suggested to have physical meetings

Action Items:

- ✓ WC to contact Sayed to move forward with the video preparation, with a slightly longer segment about ARIC to showcase ARIC achievements highlighting the story of the center.
- ✓ WC to think of a plan to utilize the ARIC space more efficiently to connduct more activities, as a huge space in the lab is underutilized.
- ✓ AA to schedule an urgent meeting for SG ,AA & WC to discuss the budget issue
- ✓ YZ & WC to prepare a wish list of projects related to additive manufacturing, composites, robotics and automation with no limitation to aerospace and share it with the SMB members.
- ✓ WC & YZ to send the SMB meetings material a week in advance, and to start having physical meetings
