Agenda items Minutes of Meeting

1. **Minutes of the last SMB – Review: Action Items:**

- **Publicizing ARIC's activities:**
  - Mr. Sayed to send the Draft of ARIC Media/Communication strategy to the SMB for review and endorsement (**Dr. Wesley to invite Mr. Sayed to join the next monthly meeting to present the draft strategy)**
- **ARIC Branding/ Renaming**
  - Mr. Sayed to suggest an approach to rebranding (**Sayed proposed a new logo for ARIC)**
  - Mr. Hasehm suggested that to publish it in the media the rebranding of ARIC
  - Dr. Abdel Qader suggested that the renewal is scheduled to be in September, under the new brand, and during the renewal an agreement can be signed related to launching of ARIC within KU and make it as an event

- **Patent Filing:**
  - Dr. Yahya to contact Dr. Sami Bashir, Director of KU Technology Management and Innovation Office, to start making the use of Tremonti assessments prepared for ARIC (ongoing, Dr. Sami to provide his feedback by week 19)
    - ➢ Dr. Abdel Qader suggested the possibility of doing it for all other patent , to ensure to understand the commercial benefits of these patents

- **Update on staff in ARIC:**
  - Dr. Wesley to check with Blake on the requested salary increase for Abdulla Ayyad and understand the process to accomplish it (still pending , Dr. Wesley to follow up with Blake)

- **Charging external entities for use of ARIC equipment**

  - Dr. Wesley to Discuss it with Jeremie and Peter, and to have the equipment's specification, to send the proposal to the SMB members for approval (completed)
  - Dr. Wesley to send an email to Dr. Abdelqader to check the possibility of using the Strata office in L Building. (completed)

- **ARIC change of name:**
  - Dr. Wesley to send an email to Sayed informing him of the change of ARIC name to Advanced Research and Innovation Center.(Completed)
  - Dr. Wesley to check with the legal team on the name change of ARIC (Graham from Legal mentioned that it will not be any issue)
  - Dr. Abdelqader to check with the Mubadala board on the change of the name and the logo (completed)

- **SANAD proposal:**
  - Dr. Wesley to email Dr. Yusra to find out her plans for a Post-doctoral fellowship. (Under Provost Office) Dr. Abdel Qader to coordinate with the Provost, Dr. Yahya to send an email to Dr. Abdel qader.

- **Thermoplastics projects:**
  - Dr. Wesley to schedule a meeting and include (Dr. Abdelqader, Dr. Wesley & Dr. Gordon) (Completed)

- Dr. Lakmal to produce projects proposals and include items to make the case for value added (partners in this programs, opportunity, student training technology development, the impact they can have),and submit it before February to be shared with the SMB for their endorsement before Board approval (finalized). Dr Yahya reported that two project proposals were submitted and that students have been identified for working on these projects. The student's names will be confirmed wthin the next two weeks.

2. **Update on staffing issues in ARIC:**

- Dr. Wesley updated the members on ARIC Staff issues.
- Dr. Abdel Qader stressed on the need to be very careful while hiring someone, 3D printing is a very complex field and requires someone with expertise and high caliber, the real solution is to hire somebody with experience in 3D printing, going forward, this candidate can be a trainee for now under Lewis' supervision.
- A replacement for Lewis is quite hard to find, Dr. Abdel Qader proposed to publicize the job and collect CVs
- Dr. Steve stressed on the need for getting Tareq trained first and hire someone with long term experience

3. **Update regarding the KUKA robot in ARIC (DG World)**

- Dr. Abdel Qader mentioned that the contract does not have a lot of information.

4. **Brief updates on the projects in ARIC**

- Dr. Wesley updated the members on the Thermoplastics and Additive Manufacturing activities,
- Dr. Yahya updated the members on the active work –packages , publications and proposals
- Dr. Abdel Qader endorsed the fact of getting ideas from Gordon, and happy with the interaction between Dr. Wesley and the engineers.
- Dr. Steve & Dr. Abdel Qader endorsed thermoplastic research and Projects with SANAD.
- Dr. Abdel qader mentioned that he will ask to expand the scope for the next renewal
- Mr. Hashem stated that ARIC should be recognized, he suggested to have a marketing plan in place to publicize what the center is doing,
- Dr. Steve endorsed the idea of publicizing of the center to make it more visible entity
- Dr. Abdelqader suggested to Integrate hub71 with KU, to have R&D review, and have startups presents, Strata, SANAD and ARIC to present the projects they are doing.

Outcome & Action Items (to be completed prior to next SBM)

- Dr. Wesley to ask Gordon on the rates of metallic printing per hour
- Dr. Steve to communicate with Dr. Peter regarding the 3D printing hiring issue
- Dr. Wesley to invite Mr. Sayed to join the next monthly meeting to present the draft strategy
